

First Day of School Sets New Enrollment Mark of 3,680

(Continued from Page 1-A) ness or trade groups, chambers of commerce, credit bureaus, unions and other community organizations to each other and the city itself.

"I want to point out that this subject, especially on the issue of labor unions, will be non-controversial. We plan to enlist the aid of representative men and women of Torrance to help us make this subject of particular local interest and application," Ellison declared.

To Learn Expression
The next unit to be studied by the graduating class will be that of the social arts. While this may partly overlap into the instruction and consideration of family relations, Principal Ellison believes that it will be of benefit in regard to examination of recreational facilities, their location, expense, use and purpose; participation in social affairs and the problems of public and private etiquette.

The fourth unit will be devoted to the oral arts, which Principal Ellison explains: "Simply means how one can best make oneself understood in conversation and expression. It is a common fact that many adults cannot express themselves to good advantage on such important occasions as seeking employment, speaking in public, grasping the basic thought of what a speaker is trying to present."

Select Special Teachers
Asked if this would include the art of proposing marriage, Ellison laughed and said that as yet the school system had not developed such a course and that "I guess that art will have to be developed individually."
Instructors for the Senior Basic course will be chosen, the principal said, from among members of the high school faculty who are interested in the subjects and who have shown their ability to give such instruction and by their contact with the community and home life. It would be of no benefit, he said, to put a teacher with little or no conception of Torrance business or industrial problems to teaching the section covered by occupational orientation.

WALTERIA FACULTY IS ANNOUNCED
Principal Arthur E. Paine of the Walteria Elementary school said this week that his faculty is composed of Mrs. Daisy Ruten, first, and second grades; Mrs. Dorothea Kellock, kindergarten; Miss Ella Saylor, second and third grades; Mrs. Frances Lawler, fifth and sixth grades, and Mrs. Velda Brooks, fourth and fifth grades.

Also the Walteria school showed less enrollment on the opening day this year than in 1936-1937 as compared to 142. Paine expects that the next few weeks will show an increased registration and a gain over last year. Many of the children are still on vacations with their parents, he said.

NEW LOMITA SCHOOL RECEIVES PUPILS
Pupils returning to the Lomita Elementary school this week were the first to enter the new building on Narbonne avenue.

Malibu Highway to Be Widened

Traffic on the Coast highway through the area of the Ridge Ranch in the Malibu section will be speeded shortly with the widening of an important section of the artery, according to state highway engineers.

Bids are to be opened Sept. 23 by the state highway department for widening 1.6 miles of the highway, known as Route 60, between Trancas Beach and Walnut Canyon.

recently completed as a \$180,000 WPA project. As soon as classes are operating smoothly in the new quarters, an open house will be held for the public, according to Principal Harriet Michaelis.

The building contains 12 up-to-date class rooms and a large double kindergarten room in addition to administration offices, nurses quarters and teachers' lounge rooms. The classroom plans are said to include the latest ideas in arrangements and color schemes to aid study. While some old furniture is being used, it has been overhauled and will be replaced within a year or two, Miss Michaelis states. As an integral part of the new school, an enlarged playground is being graded and equipped. This is part of the recent purchase of land adjacent to the old school ground. Because of the large enrollment it was necessary to continue the use of three of the bungalows, the rest being moved away.

The faculty at this school includes: Mrs. Irma O. Datz Walters, kindergarten; Mrs. Louisa Burns Doane, B-1; Mrs. Frances Carpenter Curtin, A-1; Miss Doris Buswell, B-2; Miss Carrie Irish, B-2, A-2 and A-3; Mrs. Rennie Jean Gregory Houdashtel, B-3 and A-3; Mrs. Ada C. Mrs. Marion Carstensen is in charge of the cafeteria and the adult sewing class, which meets Tuesday at this school, is directed by Mrs. Christine Krug. The adult mill class on Thursday is taught by Mrs. Effie Jean Leatart. The Los Angeles city schools' "Healthmobile" is now on the Elementary grounds and will remain there for a month while Dr. Sellwood, dentist, checks over the children's teeth.

SIX TEACHERS STILL ABSENT AT NARBONNE

Miss Clementina de Forest Griffin, principal of Narbonne high school, said yesterday she did not wish to announce the Lomita faculty until the list is complete. They are: Miss Albertine Larson and Miss Margaret McGarry, who went to Europe at the close of the term last spring; Mrs. Myrtle Swartz and Mrs. Gale McKeown, who went to Hawaii, and Mrs. Frances Ham-
